

APPLICATION

Central Plains Water Enhancement Scheme:

Application to Canterbury Regional Council for Resource Consents

Prepared for

Central Plains Water Trust

23 June 2006

42156547.66140

URS

Note:

This Application has been updated since lodgement in November 2005 primarily to reflect the 'bundling' of consents as arranged with Canterbury Regional Council.

It also includes updates to scheme details resulting from further consultation and refinement of design. These updates are primarily over location of canals and in particular do not affect the application of December 2001 to Take water from the Rakaia and Waimakariri rivers. The details are consistent with the Land Use Consent Applications and Notice of Designation Requirement lodged with Selwyn District Council in June 2006, and with the consent application Notification by Canterbury Regional Council of June 2006.

APPLICATION FOR RESOURCE CONSENT

Section 88, Resource Management Act 1991

TO: The Canterbury Regional Council

1. The Central Plains Water Trust applies for the following types of resource consent to authorise the construction and operation of a water enhancement scheme that will use water taken from the Rakaia and Waimakariri Rivers:

RAKAIA RIVER

The following applications are for activities in and adjacent to the Rakaia River.

- 1.1 CRC061863 To place structures in the bed of the Rakaia River and to excavate, disturb and deposit bed material, remove and plant vegetation to facilitate the construction, operation and maintenance of the Rakaia water intake system.
- 1.2 CRC061822 To excavate and disturb land, deposit material and remove and plant vegetation, in the riparian margin of the Rakaia River, associated with the construction and maintenance of the Rakaia water intake system.
- 1.3 CRC061873 To discharge water and contaminants, being principally sediment, to the Rakaia River from the construction, operation and maintenance of the Rakaia water intake system.
- 1.4 CRC061763 To discharge contaminants, principally dust, to air from any construction or maintenance activity associated with the Rakaia water intake system.
- 1.5 CRC061940 To divert water within the Rakaia River towards the Rakaia water intake system to enable the taking of water from the Rakaia River for irrigation and ancillary purposes, and for sediment sluicing and fish pass purposes within the Rakaia water intake system and then to divert water through the headrace canal and distribution network as described in Schedules A.3- A.4 inclusive, which includes water being diverted within the headrace canal and distribution network both above and below ground level.

- 1.6 CRC061973 To use water from the Rakaia River at a maximum rate of 40 cubic metres per second via the Rakaia water intake system, for the purposes of irrigating up to 60,000 hectares of land within the Scheme Area, for water storage, and for ancillary purposes associated with the operation of the Central Plains Water Enhancement Scheme.
- 1.7 CRC061980 To discharge water that has been diverted, but not taken, back into the Rakaia River, via sediment sluicing, fish pass and bypass channels that form part of the Rakaia water intake system.

WAIMAKARIRI RIVER

The following applications are for activities in and adjacent to the Waimakariri River.

- 1.8 CRC061866 To place structures in the bed of the Waimakariri River and to excavate, disturb and deposit bed material, remove and plant vegetation to facilitate the construction, operation and maintenance of the upper Waimakariri water intake system.
- 1.9 CRC061868 To place structures in the bed of the Waimakariri River and to excavate, disturb and deposit bed material, remove and plant vegetation to facilitate the construction, operation and maintenance of the lower Waimakariri water intake system.
- 1.10 CRC061842 To excavate and disturb land, deposit material and remove and plant vegetation, in the riparian margin of the Waimakariri River, associated with any construction, operational or maintenance activities in the area of the upper Waimakariri water intake system.
- 1.11 CRC061843 To excavate and disturb land, deposit material and remove and plant vegetation, in the riparian margin of the Waimakariri River, associated with any construction, operational or maintenance activities in the area of the lower Waimakariri water intake system.
- 1.12 CRC061875 To discharge water and contaminants, being principally sediment, to the Waimakariri River from construction, operation and maintenance activities on the upper Waimakariri water intake system.

- 1.13 CRC061920 To discharge water and contaminants, being principally sediment, to the Waimakariri River from construction, operation and maintenance activities on the lower Waimakariri water intake system.
- 1.14 CRC061765 To discharge contaminants, being principally dust, to air from any construction, operational or maintenance activity associated with the upper Waimakariri water intake system and the lower Waimakariri water intake system.
- 1.15 CRC061941 To divert water within the Waimakariri River towards the upper Waimakariri water intake system to enable the taking of water for irrigation and ancillary purposes, and for sediment sluicing and fish passes within the upper Waimakariri water intake system and then to divert water through the headrace canal and distribution network as described in Schedules A.2 – A.4 inclusive, which includes water being diverted within the headrace canal and distribution network both above and below ground level.
- 1.16 CRC061942 To divert water in the Waimakariri River towards the lower Waimakariri water intake system to enable the taking of water for irrigation and ancillary purposes, and for sediment sluicing and fish passes within the lower Waimakariri water intake system and then to divert water through the headrace canal and distribution network as described in Schedules A.2 – A.4 inclusive, which includes water being diverted within the headrace canal and distribution network both above and below ground level.
- 1.17 CRC061972 To take and use water from the Waimakariri River at a maximum rate of 40 cubic metres per second via the upper Waimakariri water intake system and the lower Waimakariri water intake system, for the purposes of irrigation of up to 60,000 hectares of land within the Scheme Area, for water storage, and for ancillary purposes associated with the operation of the Central Plains Water Enhancement Scheme.
- 1.18 Note: For administrative purposes, application CRC061972 has been created to incorporate application CRC021091 to take of up to 40 cubic metres per second of water from the Waimakariri River for irrigation and water enhancement.

- 1.19 CRC061981 To discharge water that has been diverted but not taken, back into the Waimakariri River, via sediment sluicing, fish pass and diversion channels that form part of the upper Waimakariri water intake system,
- 1.20 CRC061982 To discharge water that has been diverted but not taken, back into the Waimakariri River, via sediment sluicing, fish pass and diversion channels that form part of the lower Waimakariri Water Intake System.

WAIANIWANIWA VALLEY

The following applications are for have been lodged to carry out activities in and adjacent to the Waianiwaniwa River Valley, and as listed in Schedule A.1.

- 1.21 CRC061759 To discharge contaminants, being principally dust, to air from construction activities associated with the construction of the dam and reservoir.
- 1.22 CRC061767 To dam water and to divert water within the Waianiwaniwa River during construction of the dam and reservoir.
- 1.23 CRC061769 To excavate land to depths exceeding five metres, or deeper than the highest groundwater level at the site, and to deposit material into excavated land for the purposes of constructing the dam and reservoir.
- 1.24 CRC061817 To excavate and disturb land, deposit material, and remove and plant vegetation, in the riparian margins of the Waianiwaniwa River associated with construction of the dam and reservoir.
- 1.25 CRC061845 To erect, use and maintain the dam, in, on, under and over the bed of the Waianiwaniwa River and to construct and maintain a tunnel portal in, on, under and over the bed of the Waianiwaniwa River.
- 1.26 CRC061870 To discharge contaminants, being principally sediment, and water to the Waianiwaniwa River, during construction of the dam, reservoir, and tunnel.

- 1.27 CRC061927 To take surface water and groundwater for dewatering purposes during construction of the dam and reservoir.
- 1.28 CRC061930 To take water from the Waianiwaniwa River, for use during the construction of the dam, reservoir and tunnel portal, including for concrete batching plant purposes, the control of moisture in compacted soil, and for the control of dust.
- 1.29 CRC061939 To dam water in the Waianiwaniwa River for the purpose of creating the reservoir.
- 1.30 CRC061948 To use and store hazardous substances at facilities associated with the construction of the dam and reservoir.
- 1.31 CRC061953 To excavate and disturb land, deposit material, and remove and plant vegetation, in the riparian margins of the Waianiwaniwa River and reservoir, associated with the use and maintenance of the dam, reservoir, and related infrastructure.
- 1.32 CRC061974 To discharge water and contaminants from the headrace canal to the Waianiwaniwa River at or about map reference NZMS 260 L35: 282-540
- 1.33 CRC061975 To discharge water and contaminants from the reservoir to water in the headrace canal.
- 1.34 CRC061976 To discharge water and contaminants from the tunnel portal to land and water in the reservoir.

APPLICATIONS RELATING TO MORE THAN ONE AREA

The following applications are for activities throughout the Central Plains Water Enhancement Scheme Area, and including the areas listed in Schedules A.1 – A.8 inclusive, Schedules B.1 – B.4 inclusive, and Schedules C.1 – C.4 inclusive.

- 1.35 CRC061762 To discharge contaminants, being principally dust, to air from construction activities along the routes of the Inlet Canal, Headrace Canal, and Water Distribution Race Network, including pump stations as listed in Schedule A.8, and at the sites listed in Schedules A.2 – A.4 inclusive.

- 1.36 CRC061755 To discharge contaminants to air from construction activities including welding, abrasive blasting, water blasting and painting associated with the construction of the Central Plains Water Enhancement Scheme.
- 1.37 CRC061814 To excavate land to a depth exceeding five metres, or deeper than the highest groundwater level at the site, and to deposit material into excavated land for the purposes of constructing an Inlet Canal, Headrace Canal and Water Distribution Race Network, along and adjacent to the routes identified in Schedules A.2 – A.4 inclusive.
- 1.38 CRC061922 To discharge stormwater, which may contain contaminants, onto or into land, in circumstances where it may enter water, from all construction areas associated the Central Plains Water Enhancement Scheme.
- 1.39 CRC061932 To discharge water and contaminants, being principally sediment, from construction and maintenance activities associated with the tunnel to land and to water during construction in the area identified in Schedule A.2.
- 1.40 CRC061945 To discharge stormwater, which may contain contaminants, onto or into land, in circumstances where it may enter water, from all structures including but not limited to: Inlet Canal, Headrace Canal, Water Distribution Race Network, dam and reservoir, roads, hardstand areas and utility buildings associated with the Central Plains Water Enhancement Scheme.
- 1.41 CRC061949 To discharge water and contaminants to land in circumstances where it may enter water, in the form of seepage from beneath the Reservoir, and along the length of the Inlet Canal, Headrace Canal, Water Distribution Race Network, and wetlands, as listed in Schedules A.1 – A.4 inclusive; and C.1 – C.4 inclusive.
- 1.42 CRC061983 To discharge stormwater, which may contain contaminants, from all structures associated with the Central Plains Water Enhancement Scheme into a river, lake or artificial watercourse, including the Waimakariri River and Rakaia River and the waterbodies listed in Schedules B.1 – B. inclusive; and C.1 – C.4 inclusive.

APPLICATIONS RELATING TO SCHEDULES B1 – B4

The following applications are for activities proposed to occur at the locations listed in Schedules B.1 – B.4 inclusive.

- 1.43 CRC061820 To excavate and disturb land, deposit material, and remove and plant vegetation associated with any construction, operational or maintenance activity relating to the Headrace, Inlet Canal, and Water Distribution Race Network, in the riparian margins of the surface waterbodies listed in Schedules B.1 – B.4 inclusive.
- 1.44 CRC061846 To place, operate, maintain and repair Inlet Canal, Headrace Canal, and Water Distribution Race Network Structures, including siphons, pipes, and erosion protection structures, and associated bed excavation and disturbance, in, on, under, or over the beds of the surface waterbodies listed in Schedules B.1 – B.4 inclusive.
- 1.45 CRC061925 To take water for dewatering purposes during construction of the Inlet Canal, Headrace Canal, and Water Distribution Race Network, including for the purposes of constructing siphons, pipes, and erosion protection structures/works, in the surface waterbodies identified in Schedules B.1 – B.4 inclusive.
- 1.46 CRC061871 To discharge contaminants, being principally sediment, and water associated with any construction activity relating to the construction and maintenance of the Inlet Canal, Headrace Canal and Water Distribution Race Network, to water in surface waterbodies listed in Schedules B.1 – B.4 inclusive.
- 1.47 CRC061768 To dam and divert water during construction of the Headrace and Water Distribution Race Network, including for the purposes of constructing siphons, pipes, and erosion protection structures or works, in the surface waterbodies identified in Schedules B.2 – B.4 inclusive.
- 1.48 CRC061924 To discharge stormwater, which may contain contaminants, from all construction areas into the Waimakariri River and the Rakaia River and the waterbodies listed in Schedules B.1 – B.4 inclusive.

- 1.49 CRC061977 To discharge contaminants, being principally sediment, and water to water associated with any operational or maintenance activity relating to the Inlet Canal, Headrace Canal and Water Distribution Race Network, in surface waterbodies listed in Schedules B.1 – B.4 inclusive.
- 1.50 CRC061978 To discharge surplus water and contaminants from the Headrace Canal and Water Distribution Race Network to land adjacent to, and water in the surface waterbodies identified in Schedules B.1 – B.4 inclusive.
- 1.51 CRC061928 To discharge water taken for dewatering purposes during construction or maintenance works to land in circumstances where it may enter water, and to water in the surface waterbodies identified in Schedules B.1 – B.4 inclusive.

APPLICATIONS RELATING TO SCHEDULES C1 – C4

The following applications are for activities proposed to occur at the locations listed in Schedules C1 - C4 inclusive.

- 1.52 CRC061847 To erect, and maintain discharge structures and erosion protection structures and carry out associated bed excavation and disturbance, in, on, under, and over the bed of the surface waterbodies listed in Schedules C.1 - C.4 inclusive. The structures and works will be associated with the construction and maintenance of the Inlet Canal, Headrace Canal, and Water Distribution Race Network.
- 1.53 CRC061950 To discharge surplus water and contaminants, from the Headrace and Water Distribution Race Network to land in circumstances where it may enter groundwater, and to water at the locations listed in Schedules C.1 - C.4 inclusive.

APPLICATIONS RELATING TO SCHEDULE A8

The following applications are for activities proposed to occur at the locations listed in Schedule A.8.

- 1.54 CRC061933 To discharge contaminants to air from pump stations and emergency generators at the sites listed in Schedule A.8.

- 1.55 CRC061951 To use and store hazardous substances required for emergency generators and pump stations along the Headrace Canal at the sites listed in Schedule A.8.
2. The names and addresses of the owners and occupiers (other than the applicant) of land to which the application relates are as follows:
 - 2.1 The beds of the Rakaia and Waimakariri Rivers at intake sites are owned by the Crown and administered by the Canterbury Regional Council, PO Box 345 Christchurch.
 - 2.2 Landowners in the Waianiwaniwa Valley in the area of the proposed dam site and reservoir are listed in Schedule D.1 attached to this application.
 - 2.3 Landowners along the route of the proposed inlet canal are listed in Schedule D.2 attached to this application.
 - 2.4 Landowners along the proposed route of the headrace canal are listed in Schedule D.3 attached to this application.
 - 2.5 Landowners along the proposed route of the water distribution race network are listed in Schedule D.4 attached to this application.
 - 2.6 The road reserves and stockwater races are owned by the Selwyn District Council, Private Bag 1, Leeston.
 - 2.7 State Highways 73 and 77 are owned by the Crown, and administered by Transit New Zealand, PO Box 1479, Christchurch.
 - 2.8 The Midland Railway Line is owned by New Zealand Railways Corporation, PO Box 593, Wellington and operated by Toll New Zealand, Smales Farm, Corner of Northcote Road and Taharoto Drive, Takapuna, Auckland.
3. The locations of the proposed activity are as follows:
 - 3.1 The application relates directly to the Central Plains between the Waimakariri River and the Rakaia River, and between the foothills of the Canterbury High Country in the region of the headwaters of the Selwyn River and its tributaries known as the Malvern Hills, extending

southeast to the approximate line of State Highway 1 between Burnham and Rakaia.

- 3.2 The application also relates indirectly to surface water features, and subsurface groundwater resources of parts of the Central Plains between State Highway 1 and the coast, including Lake Ellesmere.
 - 3.3 The locations of the major structures associated with the proposed Central Plains Water Enhancement Scheme are listed in Schedule A, and in Maps 1 to 9, attached to this application.
 - 3.4 The locations of the rivers and streams that will be crossed by the inlet canal, headrace, and water distribution race network are listed in Schedule B, and Maps 1 to 9, attached to this application.
4. The following additional resource consents are needed for the proposed activity and have been applied for:

From the Canterbury Regional Council:

- 4.1 CRC021091 Water permit to take water at a rate not exceeding forty cubic metres per second from Rakaia River.
 - 4.2 CRC021091 Water permit to take water at a rate not exceeding forty cubic metres per second takes from Waimakariri River
- 5 The following additional resource consents and or designations are needed for the proposed activity:

From the Selwyn District Council:

- 5.1 A designation covering the establishment, construction, operation, maintenance maintenance, repair, upgrading and works for or relating to:
 - (a) Water diversion works, diversion channels, bypasses, overflow spillways, water intakes and headwork structures, stopbanks and associated flood protection works, sediment traps, sediment sluice gates and races, flow control gates and structures, fish screens, fish return pipes and channels, tunnels, canals, haul roads, structures and intake works for the:

- (i) Rakaia Intake Area in the bed and on the true left (northern) bank of the Rakaia River approximately 8 to 10km downstream of the Rakaia Gorge Bridge.
 - (ii) Waimakariri Upper Intake Area in the bed and on the true right (southern) bank of the Waimakariri River approximately 1 to 3km upstream of the confluence of the Kowai and Waimakariri Rivers.
 - (iii) Waimakariri Lower Intake Area in the bed and on the true right (southern) bank of the Waimakariri River at the Waimakariri Gorge Bridge and in an area approximately 1.5km downstream of the Waimakariri Gorge Bridge.
- (b) Upper Waimakariri intake canal of approximately 15.5km and tunnel of approximately 3km from the Upper Waimakariri Intake area to the Waianiwaniwa Reservoir, pump station, siphons, bridges, culverts, structures and haul roads.
 - (c) Headrace and intake canals, pump stations, siphons, bridges, culverts and haul roads, between the Rakaia Intake area and the Waimakariri Lower Intake area up the Rakaia and Waimakariri River terrace respectively and thence for a distance of approximately 61.5km over the Canterbury Plains at or about the 235m above mean sea level contour.
 - (d) Waianiwaniwa Dam, outlet tower, outlet canal and spillway at the mouth of the Waianiwaniwa Valley where it leaves the Malvern Hills between the Homebush Ridge and the unnamed ridge to the north of Coalgate and the Waianiwaniwa Reservoir which will extend approximately 8.5km up the valley from the dam into the tributaries that join the main Waianiwaniwa Valley. The reservoir will have a maximum water level of 280m above mean sea level, and the land subject to this notice of requirement for the reservoir will occupy approximately 12.5 square kilometres of the valley floor and adjacent hillside slopes.
 - (e) The construction, operation, repair, maintenance, realignment and upgrading of parts of Site Highways 73 and 77 and local roads

where the intake and main headrace canals intersect or otherwise interfere with these existing roads.

- (f) The construction, operation, repair and maintenance of new roads to replace local roads which will be inundated by the Waianiwaniwa reservoir.
- (g) The construction, operation, repair and maintenance of new construction roads at the Upper Waimakariri intake area being extensions of Rubicon Road and Keens Road.
- (h) Borrow sites, fill areas, excavation areas, construction sites (including buildings) stockpiling and storage areas, concrete batching plants, land disturbance activities and ancillary works (including vegetation clearance and planting, excavation, contouring, drilling, tunnelling, reclamation and filling for the river diversion and intake areas, intake canals and tunnel, headrace canals, access and haul roads, dam and reservoir) described in paragraphs (a) to (g) above.
- (i) Conveyors, tunnels, bridges, underpasses, overpasses, aqueducts, culverts, siphons, channels, pipes and similar works, all associated with the river intake areas, tunnels, intake and headrace canals, roads, dam and reservoir described in paragraphs (a) to (g) above.

5.2 Land use permit for the construction, use and maintenance of pipelines, open channels or waterways to convey water; and the associated construction, use and maintenance of utility buildings and structures along and adjacent to the routes of this water distribution network in the following areas:

5.2.1 Springfield

5.2.2 Sheffield

5.2.3 Darfield

5.2.4 Central (Coalgate/Hororata/Greendale)

5.2.5 Te Pirita

5.2.6 Windwhistle

6 Attached, in accordance with the Fourth Schedule of the Resource Management Act 1991, is an assessment of environmental effects in the detail that corresponds with the scale and significance of the effects that the proposed activity may have on the environment.

7 Attached is any information required to be included in this application by the district plan, the regional plan, the Resource Management Act 1991, or any regulations made under that Act. All information required is provided in the following accompanying documents:

7.1 "Central Plains Water Enhancement Scheme: Assessment of Environmental Effects for Resource Consent Applications to Canterbury Regional Council" 23 November 2005.

Denis O'Rourke
Trustee
for the Applicant

DATED this 23rd day of November 2005

Schedules A-D

Schedules of Locations

The following Schedules are copied from the Resource Consents Application Document that accompanies this report. They list the locations of the following:

- *Schedule A.1:* Waianiwaniwa Dam and storage reservoir
- *Schedule A.2:* Inlet canal and tunnel from the Waimakariri River to the Waianiwaniwa Reservoir
- *Schedule A.3:* Headrace canal
- *Schedule A.4:* Water distribution race network
- *Schedule A.5:* Rakaia River intake and headworks
- *Schedule A.6:* Upper Waimakariri River intake and headworks
- *Schedule A.7:* Lower Waimakariri River (Gorge Bridge) intake and headworks
- *Schedule A.8:* Pump stations
- *Schedules B.1 – B.4:* Locations of the dam and divert, river and stream crossings
- *Schedules C.1 – C.4:* Locations of discharges

SCHEDULE A: Locations of the Proposed Major Facilities for the Central Plains Water Enhancement Scheme

Schedule A.1: Waianiwaniwa Dam and storage reservoir

The proposed Waianiwaniwa Dam will be constructed at the mouth of the Waianiwaniwa valley where it leaves the Malvern Hills between approximate map references NZMS 260 L35: 276-478 and L35: 260-478.

The proposed Waianiwaniwa Reservoir water storage lake will extend about 8.5 kilometres upvalley from the dam, and into the tributary valleys that join the main Waianiwaniwa Valley, at about the 280 m elevation above sea level, and will occupy approximately 12 square kilometres of the valley floor and adjacent hillside slopes.

The location of the Waianiwaniwa Dam and Reservoir are shown on Map 1 below.

Schedule A.2: Inlet canal and tunnel from the Waimakariri River to the Waianiwaniwa Reservoir

The proposed inlet canal from the Waimakariri Valley to the to the Waianiwaniwa Reservoir will follow an approximately 15.5 kilometre route from the Upper Waimakariri River intake to be located in the bed of the Waimakariri River at approximate map references NZMS 260 L35: 254-675, to the eastern edge of the Malvern Hills where it will enter a tunnel at about map reference NZMS L35: 301-562. The final location of the inlet canal will be within the designation zone as shown on Map 2 attached to this application.

The inlet canal will follow a course generally southeast along the true right bank of the Waimakariri River, crossing the Kowai River at about map reference NZMS 260 L35: 267-649, and then climbing the true right bank terrace of the Waimakariri River to reach the main plains surface near Gorge Hill at about map reference NZMS 260 L35: 316-602. It then runs generally south to about map reference NZMS 260 L35: 322-584, and then southwest, passing adjacent to Sheffield School, crossing the Hawkins River, and ending at the tunnel portal.

The tunnel taking water from the inlet canal to the Waianiwaniwa Reservoir will extend for approximately 3 kilometres southwest between approximate map references NZMS L35: 301-562 and L35: 280-539.

The route of the inlet canal and tunnel are shown on Map 2 below.

Schedule A.3: Headrace

The proposed headrace will extend from the Rakaia River intake for approximately 61.4 kilometres across the upper Central Plains following approximately the 235 metre elevation contour line, to the Waimakariri River at the lower Gorge Bridge intake structure. The final location of the headrace will be within the designation zone, as shown on Maps 3 to 6 attached to this application.

The western end of the headrace will start in the bed of the Rakaia River at or about map reference NZMS K36: 071-392, and runs generally southeast for approximately 9 kilometres along the true left side of the Rakaia River, and traverses the terrace faces here to reach the main plains surface at about map reference NZMS L36: 141-328. The route then runs generally east for approximately 4.5 kilometres to cross Rakaia

Terrace Road at about map reference NZMS L36: 176-328, and then turns to run generally north for approximately 6 km to cross Leaches Road at about map reference NZMS L36: 188-379, and the Hororata River at about map reference NZMS L36: 196-398. The route then turns to the northeast and follows the 235 m elevation contour along the lower slopes of the Harper Hills for approximately 10 kilometres to cross the Coalgate- Hororata Road at about map reference NZMS 260 L35: 257-457, the Selwyn River at about map reference NZMS 260 L35: 259-461, and State Highway 77 at about map reference NZMS L35: 270-474. The route then runs east-northeast along the lower slopes of the Homebush Ridge for approximately 3.5 kilometres to about map reference NZMS 260 L35: 311-494, where it crosses Deans Road. The route then runs east for approximately 4 kilometres across the plains crossing the Hawkins River at about map reference NZMS 260 L35: 328-493, and State Highway 73 and the Midland Railway line at about map reference NZMS 260 L35: 350-502. It then runs northeast for approximately 5 kilometres to near Bleak House Corner where it crosses the Old West Coast Road at about map reference NZNS 260 L35: 385-535. It then turns to run generally northwest for approximately 8.5 kilometres, traversing the terrace on the true right bank of the Waimakariri River and finishing at the Waimakariri Gorge Bridge intake at about map reference NZMS 260 L35: 328-603.

The route of the headrace canal is shown on Maps 3 to 5 below.

Schedule A.4: Water distribution race network

The proposed water distribution race network will follow roads or run through private property in the rural areas of the inner Central Plains. The northern boundary runs along the Waimakariri River from about the Kowai River confluence downstream for approximately 35 kilometres, and the southwestern boundary runs along the Rakaia River from near the Gorge Bridge southeast to the Satate Highway 1 Bridge. The northwestern boundary follows the inner plains margin. The southeastern margin follows State Highway 1 generally northeast from Rakaia to the Selwyn River, and then trends more generally north and north-northeast to the Waimakariri River. Parts of the race network will pass near the settlements of Springfield, Sheffield, Darfield, Kirwee, Coalgate, Hororata, Windwhistle, Te Pirita, and Dunsandel.

The routes of the water distribution race network are shown on Maps 6 to 9 below.

Schedule A.5: Rakaia River intake and headworks

The proposed Rakaia River intake and headworks structures will form part of the headrace canal in and adjacent to the bed of the Rakaia River at the following locations.

1. Intake structure in the bed of the Rakaia River at about map reference NZMS 260 K36: 078-387
2. Sediment trap at about map reference NZMS 260 K36:081-384
3. Flow control gate at about map reference NZMS 260 K36:082-381
4. Fish screen and bypass channel at about map reference NZMS 260 K36: 083-379

Schedule A.6: Upper Waimakariri River intake and headworks

The proposed Upper Waimakariri River intake and headworks structures will form part of the inlet canal in and adjacent to the bed of the Waimakariri River at the following locations.

1. Intake structure in the bed of the Waimakariri River at about map reference NZMS 260 L35: 255-667
2. Sediment trap at about map reference NZMS 260 L35: 259-662
3. Flow control gate at about map reference NZMS 260 L35: 082-381
4. Fish screen and bypass channel at about map reference NZMS 260 L35: 261-658

Schedule A.7: Lower Waimakariri River (Gorge Bridge) intake and headworks

The proposed lower Waimakariri River intake and headworks structures will form part of the headrace canal in and adjacent to the bed of the Waimakariri River at the following locations.

1. Intake structures in the bed of the Waimakariri River at about map reference NZMS 260 L35: 328-603
2. Sediment trap at about map reference NZMS 260 L35: 334-592
3. Flow control gate at about map reference NZMS 260 L35: 334-588
4. Fish screen and bypass channel at about map reference NZMS 260 L35:336-583

Schedule A.8: Pump stations

Pump stations are proposed at the following locations.

1. On the inlet canal at about map reference NZMS 260 L35: 269-637
2. On the headrace in the Waimakariri Valley at about map reference NZMS 260 L35: 352-569
3. On the headrace near the Waianiwaniwa Dam at about map reference NZMS 260 L35: 277-477
4. On the headrace in the Rakaia Valley at about map reference NZMS 260 L36: 120-348
5. On the Windwhistle race network at about map reference NZMS 260 L36: 141-385

SCHEDULE B: Locations of proposed Dam and Divert, River and Stream Crossings

Schedule B.1: Waianiwaniwa dam site

It is proposed to dam and divert the Waianiwaniwa River at about map reference NZMS 260 L35: 275-477

Schedule B.2: Inlet Canal to the Waianiwaniwa Reservoir

The proposed route of the inlet canal will cross rivers and streams at the following locations.

1. Kowai River at about map reference NZMS 260 L35: 267-649
2. Kowai River at about map reference NZMS 260 L35: 265-651
3. Hawkins River at about map reference NZMS 260 L35: 302-563
4. Unnamed tributary of Waimakariri River at about map reference NZMS 260 L35: 261-656
5. Unnamed tributary of Waimakariri River at about map reference NZMS 260 L35: 257-662
6. Unnamed tributary of Waimakariri River at about map reference NZMS 260 L35: 256-663

Schedule B.3: Headrace canal

The proposed route of the headrace canal will cross rivers and streams at the following locations.

1. Hororata River at about map reference NZMS 260 L36: 196-398
2. Selwyn River at about map reference NZMS 260 L35: 259-461
3. Hawkins River at about map reference NZMS 260 L35: 328-493
4. Cordys Stream at about map reference NZMS 260 L35: 215-421
5. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 198-408
6. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 204-409
7. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 205-409
8. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 209-414
9. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 211-417
10. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 220-422
11. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 223-428
12. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 226-428
13. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 227-428
14. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 233-433
15. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 237-434
16. Unnamed tributary of Selwyn River at about map reference NZMS 260 L35: 247-448
17. Unnamed tributary of Selwyn River at about map reference NZMS 260 L35: 247-250
18. Unnamed tributary of Selwyn River at about map reference NZMS 260 L35: 252-451
19. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 283-480

20. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 276-476
21. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 294-486
22. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 297-481
23. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 306-488
24. Unnamed tributary of Waianiwaniwa River at about map reference NZMS 260 L35: 287-482
25. Blacks Stream at about map reference NZMS 260 L35: 309-494

Schedule B.4: Water distribution race network

The proposed routes of the water distribution race network will cross rivers and streams at the following locations.

1. Unnamed Tributary if the Hororata River at about map reference NZMS L35: 058-425
2. Unnamed Tributary if the Hororata River at about map reference NZMS L35: 074-429
3. Unnamed tributary of Hororata River at about map reference NZMS 260 L36: 141-378
4. Unnamed tributary of Hororata River at about map reference NZMS 260 L36: 154-383
5. Unnamed tributary of Hororata River at about map reference NZMS 260 K35: 096-399
6. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 105-401
7. Unnamed tributary of Hororata River at about map reference NZMS 260 L35: 122-409
8. Unnamed tributary of Selwyn River at about map reference NZMS 260 L35: 263-443
9. Unnamed tributary of Selwyn River at about map reference NZMS 260 L35: 260-456
10. Unnamed tributary of Rakaia River at about map reference NZMS 260 L36: 266-224
11. Unnamed tributary of Rakaia River at about map reference NZMS 260 L36: 271-236
12. Irwell River at about map reference NZMS 260 L36: 420-296
13. Irwell River at about map reference NZMS 260 L36: 423-296
14. Irwell River at about map reference NZMS 260 L36: 425-296
15. Irwell River at about map reference NZMS 260 L36: 426-296
16. Irwell River at about map reference NZMS 260 L36: 432-295
17. Hawkins River at about map reference NZMS 260 L35: 360-414
18. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 229-599
19. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 228-592
20. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 230-601
21. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 233-601
22. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 244-598
23. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 253-589
24. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 260-606
25. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 257-619
26. Unnamed Tributary of the Hawkins River at about map reference NZMS 26 L35: 248-627

SCHEDULE C: Location of Discharges

Schedule C.1: Rakaia River headworks discharges

1. Sediment sluice race discharge at about map reference NZMS 260 K36: 081-381
2. Fish bypass channel at about map reference NZMS 260 K36: 083-378

Schedule C.2: Waimakariri River headworks discharges

1. Upper Intake sediment sluice race discharge at about map reference NZMS 260 L35: 262-659
2. Upper intake fish bypass channel at about map reference NZMS 260 L35: 263-657
3. Lower (Gorge Bridge) intake sediment sluice race discharge at about map reference NZMS 260 L35: 344-588
4. Lower (Gorge Bridge) intake fish bypass channel at about map reference NZMS 260 L35: 344-588

Schedule C.3: Operational bywash discharges

Operational bywash discharges will occur from water distribution races at the following locations.

1. Race D 2 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 456-301,
2. Race D 2.1 to a wetland adjacent to the Waimakariri River at about map reference NZMS 260 M35: 523-490
3. Race D 2.2 to a wetland adjacent to the Waimakariri River at about map reference NZMS 260 M35: 539-488
4. Race D 2.3 to a stockwater race at about map reference NZMS 260 M36: 524-371
5. Race D 3 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 441-305
6. Race C 1 to a wetland adjacent to the Hawkins River at about map reference NZMS 260 L36: 394-330
7. Race C 2 to a wetland adjacent to the Waianiwaniwa River at about map reference NZMS 260 L36: 351-358
8. Race C 3 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 350-345
9. Race TP 1 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 435-299
10. Race TP 2.6 to a wetland adjacent to the Rakaia River at about map reference NZMS 260 L36: 329-184

Schedule C.4: Emergency bywash discharges

Emergency bywash discharges will occur from water distribution races at the following locations.

1. Race D 2 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 456-301,
2. Race D 2.1 to a wetland adjacent to the Waimakariri River at about map reference NZMS 260 M35: 523-490

3. Race D 2.1.1 to the Waimakariri River at about map reference NZMS 260 L35: 477-496
4. Race D 2.2 to a wetland adjacent to the Waimakariri River at about map reference NZMS 260 M35: 539-488
5. Race D 3 to a wetland adjacent to the Selwyn River at about map reference NZMS 260 L36: 441-305
6. Race C 1 to a wetland adjacent to the Hawkins River at about map reference NZMS 260 L36: 394-330
7. Race C 2 to a wetland adjacent to the Waianiwaniwa River at about map reference NZMS 260 L36: 351-358
8. Race C 3 to a wetland adjacent to the Selwyn River at about map NZMS 260 L36: 350-345
9. Race TP 1 to a wetland adjacent to the Selwyn River at about map NZMS 260 L36: 435-299
10. Race TP 1.1 to the Hororata River at about map NZMS 260 L36: 337-334
11. Race TP 2.6 to a wetland adjacent to the Rakaia River at about map NZMS 260 L36: 329-184
12. Race TP 3.2 to the Rakaia River at about map NZMS 260 L36: 264-219
